

## **Kontinuum**

The exhibition »Kontinuum« is a further development of the artistic collaboration between the **BETONBOX**, Düsseldorf, and the **Alfred-Institute**, Tel Aviv, which started in 2015.

Seven Israeli and eight German artists have jointly developed their contributions to the exhibition in teams of two or three – across the geographical distance as well as language and cultural barriers – in a purely virtual exchange.

After the Israeli artists arrive in Germany, the works will be realized in the **BETONBOX** project space.
